

GREEN TRAILS HOMEOWNERS ASSOCIATION

ARCHITECTURAL GUIDELINES

Revised 1/2010

**GREEN TRAILS HOMEOWNERS ASSOCIATION HANDBOOK
ARCHITECTURAL GUIDELINES AND OTHER RULES AND REGULATIONS**

The following handbook of policies, architectural guidelines and covenants has been approved by the Board of Directors of the Green Trails Homeowners Association ("the Association"). The guidelines shall be looked upon as protective rather than restrictive because they are designed to enhance the quality of life for individuals living in the Association by protecting the property values and safety of all residents and owners.

The handbook addresses a broad range of rules and regulations as well as exterior modifications for which homeowners must submit an application to the Architectural Review Committee ("the Committee"). In the guidelines, references may be made to three types of homes¹; townhouses, which are several single family dwellings connected by adjoining walls; townhomes, which are separated single family homes connected by a short adjoining cement wall; single family homes which are not connected in any way to the house next door.¹ The guidelines are not intended to create, nor shall it be construed to constitute a contract between the Association and unit owners or residents. The policies and procedures apply to all owners and residents without regard to race, color, religion, national origin, age, sex or citizenship. Applicable State or Federal law will prevail where such laws conflict with any provision of this handbook.

While it would be impossible to address each specific modification or addition, these guidelines present the principle factors, which shall be considered when developing a design. More specifically, these guidelines attempt to define the standards by which all applications will be considered regarding size, quality, location, materials and color of any architectural modification, which of course must take into consideration the intended use and relationship of adjoining properties. Modifications not specifically addressed in this document shall not be presumed to be outside the auspices of the architectural guideline review process, and may require an application. While a copy of all applications and letters are kept on file by the management company, it is also imperative for the applicant(s) to keep a copy of all correspondence, should there be any question in the future of noncompliance to the architectural guidelines. The basis for many of the following guidelines and rules can be found in the Declaration of Covenants, Conditions and Restrictions of the Association, which you should have received at settlement.

Finally, while precedence will have a bearing on the Committee/Association decisions, the Committee/Association is not held to a final decision based solely upon precedence, but upon the individual merits of each application.

¹ Note that for Green Trails HOA budgeting purposes, townhouses are those units on HOA privately-owned streets while townhomes are townhouse units on County streets.

MISSION STATEMENT

It is the goal of the Committee to represent the common interest of the homeowners in achieving and maintaining architectural compatibility and continuity, enhancing the overall quality and value of our neighborhood. The Committee strives to supervise compliance with the rules in a fair, reasonable and equitable manner, while maintaining the integrity, aesthetic quality and value of the community.

AMENDMENTS TO THE GUIDELINES

The Board of Directors ("the Board") and the Committee will periodically conduct an evaluation to determine if the guidelines need to be amended. We anticipate that the majority of changes primarily would be additive and would not involve substantive changes of existing rules and regulations.

APPLICATION REVIEW PROCEDURES

The following require an application to be submitted to the Committee IN ADVANCE on the attached modification form, accompanied by complete plans and specifications: any proposed exterior addition or modification requiring a Fairfax County building permit; any change in the home's exterior colors', any fences, solar panels, hot tubs and spas, basketball backboards, exterior air conditioners or heat pumps, patios or ground level decks, storage sheds, modifications to driveways, or major landscaping. The committee shall review and approve all additions and modifications, which comply with the guidelines set forth in this handbook. Approval for a proposed exterior addition or modification, not specifically addressed in the guidelines shall not be unreasonably denied.

Plans for the construction of decks, patios, sheds and other structures must meet Fairfax County building codes and appropriate building permits must be obtained before beginning any construction. Projects shall be completed in a timely manner. The failure to commence a project within twelve (12) months of approval by the Committee (or the Board) and the failure to complete a project within three (3) months of commencement will require an application to the Committee for an extension of time to complete the project.

The modification form must be completed in full, or it will be returned to be resubmitted. Upon receipt of the request, the Committee shall either approve or

deny the request within thirty (30) days after the application is received by the Association's management agent. The rationale for denying a request shall be documented on the modification form. If a request is denied by the Committee, the applicant may resubmit a request after bringing in into compliance with the requirements of the Committee or appeal the Committee's decision.

If the applicant disagrees with the Committee's decision, an appeals procedure is provided by the Green Trails Homeowners Association (GTHOA) Board of Directors. A verbal request for an appeal must be made to the management company within 48 hours of receipt of the Committee's decision, followed by submission of a written request within ten (10) working days. The management company will put the applicant's appeal on the agenda of the next monthly board meeting for a hearing. The written documents regarding the application and appeal provided by the homeowner will be given to the Board prior to its meeting by the management company. The Committee will be notified of the appeal and asked to submit any comments not already made on the Architectural Modification Form.

The applicant shall be present at the next monthly board meeting to present his or her appeal to the GTHOA board members. After the appeal is heard during the public portion of the monthly board meeting, the Board will discuss the matter later in executive session. A decision will be made as soon as the Board has all the information to make a decision. When the Board reaches a decision, a disposition letter will be written to the applicant by the management company.

The Committee is required to make a decision within thirty (30) days of the receipt of the application by the management agent. The Committee is NOT required to notify the applicant within thirty (30) days. If you have not received a written decision from the Committee within thirty (30) days, it is the homeowner's responsibility to contact the management agent to confirm whether a decision has been finalized. If the Committee fails to make a decision within the thirty (30) day period, approval shall be automatic but shall not be deemed to be a waiver of any provision of the Declaration of Covenants, Conditions, or Restrictions. While the Green Trails Home Owners Association and the Architectural Review Committee no longer require signatures from adjacent homeowners, it is always advisable to discuss with your neighbors the modifications you are requesting.

AUTHORITY, DISCOVERY AND ENFORCEMENT OF THE RULES AND REGULATIONS

AUTHORITY: The Architectural Review Committee is authorized by the Association Board of Directors to achieve its stated mission in compliance with: (1) The Green Trails Homeowners Association (GTHOA) Declarations of Rules and Bylaws; (2) The Restrictive Covenants which accompany the property deed; and (3) the Virginia Property Owners Association Act of 1993, Article 2, Section 55-79.53.

DISCOVERY: It is the responsibility and the initiative of the Association Board of Directors through its appointed Architectural Review Committee to be apprised of any record transactions and modifications occurring within its jurisdiction requiring compliance with the Association's rules and bylaws, restrictive covenants, and state law. The means employed by the Committee to achieve discovery are: (1) Periodic walk through inspections of the Community; (2) resale compliance inspection; (3) member observations and complaints; (4) governmental and quasi-governmental agencies; (5) the management agent; and (6) any other.

ENFORCEMENT: The Association shall notify the homeowner in writing of any violation of the procedures for obtaining approval of any addition or modification, of any violation of the guidelines, or of any violation of the plans approved by the Committee and/or the Board which are not covered in the guidelines and covenants. Such notice shall be in writing and delivered by first class mail within thirty (30) days after the Association is made aware of the violation. If the homeowner is a nonresident, the violation notice shall be mailed to the tenant in the home as well as the owner.

In any instance where the violation presents a health or safety hazard, the Board may direct the Association's management agent to immediately notify the owner and/or tenant in writing to take corrective action at the owner's expense within the time frame specified in the notice.

All notifications of violations appealed by the homeowner and reviewed by the Board will include a statement of the Board's findings and conclusions, and the appropriate sanction, relief or denial thereof. A copy of each decision when issued shall be sent to the parties of the proceeding and the Committee.

In the event the homeowner does not bring the violation into compliance within the time frame specified in the notice or submit a request for an appeal within ten (10) days of receipt of the violation notice, legal action may be taken by the

Association. The owner may be held liable for any and all costs, including legal expenses, in connection with the correction of the violation.

A letter notifying a homeowner of a proposed legal action under the Declaration of Covenants, Conditions and Restrictions shall contain the following:

- 1) The estimated cost of repair, as determined by the contractor who the Board proposes will do the work if the homeowner fails to take corrective action.
- 2) A statement that the Board will have the work done if the homeowner does not correct the problem within a specified period of time or if the homeowner fails to provide the Board with acceptable evidence that corrective action has been initiated.
- 3) A statement that any funds expended by the Association, including legal and estimated expenses, will become a part of the owner's assessment and that such assessment may constitute a lien upon the property.
- 4) A statement that a majority vote from the Board supporting the position being taken has the concurrence of the Association's attorney.

The Association reserves the right to impose monetary assessments for non-compliance with established Guidelines in accordance with the Virginia Property Owners Association Act, Article 2, Sections 55-79.53 and 55-513.

THE FAILURE OF THE BOARD TO ACT TO ENFORCE ANY RIGHT, PROVISION, COVENANT, CONDITION, RULE OR REGULATION SHALL NOT CONSTITUTE A WAIVER.

ARCHITECTURAL GUIDELINES, RULES AND REGULATIONS

The guidelines and rules and regulations stated below have been adopted by the Board and are intended to both reiterate and supplement the Declaration of Covenants, Conditions and Restrictions of the Association.

ANIMALS: No birds, animals, livestock, poultry or insects shall be raised on any Lot except that dogs and cats can be kept as household pets, but shall not be raised for commercial purposes. The Board may from time to time publish and impose reasonable regulations setting forth the type and number of domestic animals that may be kept on any lot.

Permission has been extended for enforcement to all Fairfax County and State agencies with regard to county and state codes that address animals. Owners and all other persons who are owners and/or custodians of pets shall not allow such pets to run at large. A dog or cat shall be deemed to run at large while roaming, running, or self-hunting or when not restrained by a dependable leash and controlled by a responsible person when off the property of the owner as defined by the County Code (section 41-2-5).

All pets must have appropriate shots, licenses and tags as required by the County Code (sections 41-2-2; 41-2-3; & 41-2-4). Pets shall not be chained or confined in any common area.

Pet owners shall be responsible for the clean up and proper disposal of pet wastes deposited in the common areas, the property of other community residents as well as their own yards. Fairfax County has instituted a "pooper scooper" law in which dog owners must pick up waste deposited by their pets on others' property or public property (Code section 41-2-6).

Pet owners shall be responsible for any and all costs incurred in the repair or damage to the common areas as well as the property of other Association residents caused by their pet(s).

Residents or guests who own pets shall ensure that their pets do not become a nuisance to other residents in the community. Actions which may constitute a nuisance include, but are not limited to, barking, crying, scratching or being hygienically offensive. Per the Fairfax County Code sections 41-1; 41-2-7; 41-2-8 and Chapter 108-5.2, it is against the law to allow animals to trespass on, destroy or damage another person's property. Animals must not frequently and habitually make loud and objectionable noises or be kept in such a manner as to cause unsanitary conditions.

Violation(s) of these animal regulations may result in a County imposed fine of up to \$250.

Refer to Article VII, Section 10 of the Declaration of Covenants, Conditions and Restrictions for more information on animal regulations.

ADDITIONS: Additions shall be compatible with the size and scale of the existing house. Detached garages will be considered on a case by case basis. Color, style and construction materials shall match the existing house. All additions must be approved in advance by the Committee.

ANTENNAS AND SATELLITE DISHES: The following Green Trails Architectural Guidelines are being made to comply with Federal Communications Commission rules as directed by the Telecommunications Act of 1996, and in accordance with Article 7, Section 3 of the Green Trails By-Laws.

The following external antennas are permitted in Green Trails for the purpose of receiving Video programming.

Types of antennas covered:

- 1) A "dish A" antenna that is one meter (39") or less in diameter. (Direct Broadcast Satellite)
- 2) TVBS – Television Broadcast Stations.
- 3) An antenna that is one meter or less in diameter or diagonal measurement and is designed to receive video programming service via MMDS.

Safety Restrictions: The Governance requires that all owners comply with all safety restrictions as outlines by Federal, State and Local requirements to include, but not limited to, fire, electrical and FCC codes.

All antennas must be installed as required by the manufacturer and must be properly grounded. (Adopted: 11/13/96)

ATTIC VENTILATORS AND EXHAUST DUCTS: Attic ventilators, turbines and exhaust ducts are permitted and shall be the color of the house siding or trim (if mounted on a gable end). Ventilators and turbines shall be mounted on the least visible side of the ridgeline in an effort to minimize their impact on other homes. Ventilators and exhaust ducts meeting the requirements cited above do not require approval by the Committee.

AWNINGS: Retractable awnings must match and/or complement the color and style of the home and be a size that is appropriately proportional to the home. No fixed awnings will be permitted. Awnings may only be used in the back of

the home, never the front or the sides of the home. Approved awnings are allowed to be open only during the period of April 1st through October 31st. Awnings must be kept in good repair at all times with no rips or tears. Mechanical failures that prevent complete retraction will be in violation. Awnings shall be kept out of sight November 1st through March 31st. All awning additions must be approved in advance by the Committee.

BUSINESS OR TRADE: No business, trade, or profession of any kind or nature shall be carried on or practiced in any residential structure without the expressed written consent of the Board. A letter may be sent to the Board of Directors via the Management Company asking for their written consent.

CHIMNEYS AND METAL FLUES: Chimneys and metal flues must either be masonry, stainless steel, painted black or enclosed in the same finish material as the exterior of the home to which they are attached. Chimneys and flue ducts meeting the requirements cited above do not required approval by the Committee.

CLOTHESLINES: Clotheslines or similar apparatus for the exterior drying of clothes are prohibited. Refer to Article VII, Section 12 for more information on clotheslines.

DECKS AND GAZEBOS: All proposed decks and gazebos must be approved in advance by the Committee. Homeowners are encouraged to consider the following variables for a proposed deck and/or gazebo:

Location: A deck and/or gazebo should be located in the rear yard. Specific locations will be evaluated on their individual merit.

Scale: The scale of all decks and gazebos shall be compatible with the scale of the house as cited on the property. Decks, particularly elevated decks, shall be on a scale and style that are compatible with the home to which they are attached, adjacent homes and the environmental surroundings, and up to, but no more than, 50% of the remaining property. When submitting the request for modification form, it is imperative that you specify if it is to be an upper level or ground level deck.

Color: Decks and gazebos must be made from wood or wood like materials (e.g., Trex decking) and may be left to age and weather naturally. Decks and gazebos that are painted or stained shall generally match the trim or dominant color of the applicant's house. Natural wood colored stains will be considered.

Storage Under Decks: The use of decorative screening or landscaping to

minimize any adverse visual impact on neighboring homes from storage under an elevated deck shall be required.

DOG HOUSES AND DOG RUNS: Dog houses are only permitted in homes with at least a five foot fence in the backyard. Dog houses shall be located where they are visually unobtrusive to neighboring homes. The use of appropriate screening may be required by the Committee in order to minimize any negative visual impact.

Dog runs are prohibited.

DOORS AND WINDOWS: Storm doors shall be full view (no solid panels) with clear, uncolored glass, and may contain a single support bar or self storing storm door. Doors shall be white, beige, the color of the trim, or the same color as the entry door behind them. **All storm doors require advance approval** by the Committee, and the application shall include a picture or accurate drawing of the proposed door.

Storm and screen windows must be painted white or match the trim of the house. No plastic covering will be permitted on the outside of doors or windows. Installation of windows with a different style other than what already exists or is provided by the builder, requires advance approval by the Committee.

DRIVEWAYS: Driveway extensions or additions must be approved in advance by the Committee. Extensions and additions to driveways will be considered for approval only after a thorough investigation of the impact on adjoining properties is completed. Like materials shall be used. Upgraded materials (brick, stone, pavers) will be considered.

Pipe-stem driveways are privately owned and maintained by the lot owner(s). Purchasers of pipe-stem lots automatically assume an obligation for maintenance, upkeep, rebuild and repair of the pipe-stem driveway.

EXTERIOR AIR CONDITIONERS: Individual air conditioning units extending from window are prohibited. The addition or relocation of exterior air conditioning or heating units must be approved in advance by the Committee.

EXTERIOR APPEARANCE/MAINTENANCE GUIDELINES: Property ownership includes the responsibility for the maintenance of all structures and grounds, which are a part of the Lot. This includes, but is not limited to, items such as mowing grass, removal of trash and structural maintenance. Maintenance affects the visual character and economic values of the property and neighborhood and, in some cases, safety.

- 1) Residents are responsible for maintaining the exterior of their dwellings, structures and grounds.
- 2) All lawn areas shall be kept neat and mowed and shall not be permitted to grow beyond a height of six (6) inches. Dead plants and trees shall be promptly removed and lawns shall be free of dead or bare areas in order to prevent soil erosion. Shrubbery shall be kept trimmed to maintain a neat appearance. Trees and shrubbery shall be maintained so they will not obstruct sight lines for vehicular traffic.

The Green Trails Home Owner's Association wants to encourage its members to enhance their properties with appropriate landscaping. Not only does this increase the value of individual homes, it reflects nicely on the neighborhood and, in turn, increases the values of neighboring homes.

It is essential that all landscaping be initially planted to ensure that future growth will remain within the confines of the individual homeowner's property lines. Invasive plants such as bamboo and ivy can intrude into neighbor's yards as well as into common areas.

Any homeowner of a property that has invasive plants will be responsible for maintaining those plants and ensuring that they don't spread beyond his/her property lines. Should the plants spread onto neighbor's yards and/or onto common ground, the owner of the property where the plants originate will be responsible for all costs associated with removing them from neighbors' property and/or common ground.

- 3) Peeling or excessive fading of exterior paint will be cited as an architectural violation, as will severely dented or unattached aluminum siding, gutters, or shutters. Exterior items that are broken, deteriorating, or missing parts are also subject to a violation citation.
- 4) No storage of bicycles, trash or trash cans, barbecue grills, snow shovels, tires, work tools, boxes, building supplies, etc. in the front yard

or side yard (if unfenced) is permitted. Homes with yards facing a public road, if unfenced, shall shelter stored items.

Refer to Article VII, Section 6 of the Declaration of Covenants, Conditions and Restrictions for more information on property appearance and maintenance.

EXTERIOR LIGHTING: Any replacement of exterior lighting or additional fixtures must be compatible with the applicant's home. No application is required if the proposed lighting falls within these guidelines. However, the addition of a lamppost does require advance approval by the Committee.

No exterior lighting shall be directed outside the applicant's property. Proposed additional lighting shall not be approved if it will result in adverse visual impact on adjoining neighbors due to the location, wattage or other features.

Decorative holiday seasonal lighting, e.g., Christmas lighting, may only be installed during the holiday season and at the holiday season's conclusion, must be removed.

Refer to Article VII, Section 3 of the Declaration of Covenants, Conditions and Restrictions for more information on exterior lighting.

EXTERIOR PAINTING: An application is not required in order to repaint or restain a home or exterior improvement to match the home's original color. All exterior color changes must be approved in advance by the Committee. This requirement applies to siding, doors, shutters, trim, roofing and other appurtenant structures.

Refer to Article VII, Section 13 of the Declaration of Covenants, Conditions and Restrictions for more information on exterior painting. For a list of approved colors, contact the management agency.

FENCES: All fences must be approved in advance by the Committee. Fences will be reviewed on a case by case basis. Consideration will be given to lot size, type of dwelling, location, materials, and neighboring fences when reviewing applications. Stockade fences, chain link and other galvanized material fencing are prohibited, only natural color wood shall be used and the unfinished side of the fence (showing the posts and other supporting members) shall be facing the interior of the Lot on which the fence is erected. Fence height will generally be restricted to a maximum of six feet.

A fence should generally begin at or behind the midpoint of the home.

Temporary fencing of string, tape or other similar materials shall not be used for more than two weeks, unless approval was received in advance by the committee.

Gates must match the fencing in design, material, height, and natural color. If the ground slopes, the fence shall be parallel to the ground. No part of the fence may be installed on common ground, which is the property of the Association.

If two adjacent homeowners build fences on their Lots, with one or both fences built inside their property line which would result in an alley being created between the two fences, the last owner constructing the fence will be responsible for installing a false front on the fence to close the alley.

Townhouse fences shall be built using the same height, style and materials as the builder installed.

FIREWOOD: Firewood shall be kept neatly stacked and shall be located to the rear of the home and in such a manner as to avoid any adverse visual impact on neighboring homes. Screening may be required in certain cases.

FLAGPOLES: The installation of permanent, free-standing flagpoles must be approved in advance by the Committee. Any permanent, free-standing flagpole must be installed and maintained in a vertical position. The height, color and location of the flagpole must be consistent with the size of the property and scale and design qualities of the home. A temporary flagpole staff does not exceed six feet in length and is attached at an incline to the wall or entrance area of the home does not require approval by the Committee.

GREENHOUSES: The installation of greenhouses must be approved in advance by the Committee. An attached greenhouse shall be characterized as an addition to a home and must meet the following criteria to be approved:

- 1) They must be attached to the rear of the home.
- 2) The size and design must be architecturally compatible with the home and neighboring homes.
- 3) Any adverse visual impact on neighboring homes must be minimized as much as possible.
- 4) Greenhouses shall not be used for commercial purposes.

GRILLS: All barbecue grills must be placed in the rear yard of the home away from adjacent property lines. Permanent grills require ARC approval.

HAZARDOUS WASTE DISPOSAL: The dumping or disposal of oil, grease, or any

other chemical, residual substance or particles from holding tanks of any type is not permitted on the property. Disposal must also conform to environmental regulations.

HOT TUBS AND SPAS: Installation of exterior hot tubs and spas must be approved in advance by the Committee. Exterior hot tubs and spas must be located in the rear yard adjacent to the home. The incorporation of hot tubs as a feature of decks and patios is permitted. The exterior finish of an elevated hot tub or spa shall blend with the exterior finish of the home, deck or patio to which it is attached or most closely related. All hot tubs and spas require an application.

LANDSCAPING: All new major landscaping must be approved in advance by the Committee. The new landscaping must be compatible with the neighboring homes. The replacement of like kind and size plant material is permitted without approval. Major landscaping is defined as any planting or change in ground cover which would include fifty (50) percent or more of the front of your Lot or if the specific landscape modification is listed below. Landscaping is also defined as any addition of permanent decorative objects to the front yard, either man-made or natural, which are not part of the original construction design. Decorative objects will be reviewed on an individual basis, based upon the potential negative visual impact on the surrounding area. Holiday seasonal objects (such as Christmas wreaths) are not included in this category. However, holiday seasonal objects must be removed at the conclusion of the holiday season.

All homes must have a tree located in the front yard. No live trees with a diameter in excess of six (6) inches, measured 24 inches above the ground, or marked "no cut", may be removed without the prior approval of the Committee. If a tree is removed for any reason, a replacement tree must be replanted within six months of removal.

No trimming or removal of trees or flora from Association property is permitted without prior approval from the Board of Directors.

Refer to Article VII, Section 8 of the Declaration of Covenants, Conditions and Restrictions for more information on landscaping and tree removal.

LEASES: Homeowners may lease their units but should recognize that the owner is responsible for the actions of his or her tenant(s) and may be held accountable by the Association for violations of the rules and/or damage to the common area. In conjunction with this, it is very important that the owner provide the tenant with a copy of the rules and carefully explain the need to abide by those rules.

MAILBOXES: Mailboxes shall be of a standard size within a neighborhood. Since mailboxes are a highly visible item in the community, they shall be maintained so as not to present an eye-sore and detract from the overall appearance of the street.

PATIOS: All patio construction or additions must be approved in advance by the Committee. Patios should generally be located in rear yards. Any adverse drainage requirements, which might result from the construction of a patio shall be considered and remedied.

RAIN BARRELS: Green Trails HOA supports environmental conservation efforts that are beneficial to the planet and don't detract from the health, safety and appearance of the community. One such effort is water conservation in the form of rain barrels. Rain barrels are allowed by the Association under the following conditions:

- 1) The maximum number of rain barrels allowed per home is 2.
- 2) All rain barrels must be located in the back yard or in the side yard behind the peak of the home's roof line. No rain barrels are allowed in the front yard.
- 3) All rain barrels must match the color of the home's siding or trim in order for them to be as inconspicuous as possible.
- 4) Each barrel may be no wider than 24" and no taller than 44" with a capacity of no more than 60 gallons.
- 5) All rain barrels must be capped with fiberglass screens that allow water in but prevent mosquitoes from getting into the barrel to lay their eggs.
- 6) All rain barrels must be maintained:
 - a. for appearance
 - b. to prevent mosquitoes
 - c. for safety of children
 - d. for runoff that could damage neighbors' yards
- 7) Additional information on rain barrels can be obtained on the Fairfax County website:
<http://www.fairfaxcounty.gov/nvswcd/rbaccessories.pdf>

RECREATIONAL AND PLAY EQUIPMENT: Recreational and play equipment shall be unobtrusive to neighbors and shall comply with the following regulations:

- 1) The equipment shall be located in the rear yard.
- 2) The equipment shall be compatible with the Lot size. Screening may be required to minimize any visual impact on the neighboring homes.
- 3) Equipment constructed of wood and left in a natural condition to weather is encouraged.

- 4) Equipment must be properly maintained.
- 5) Basketball backboards require approval in advance by the Committee and the application must have the signed acknowledgement from all adjacent property owners. The applicant must agree in writing to restrict playing times to those specified in the Fairfax County Public Facilities Manual.

Furthermore, the Public Facilities Manual specifies that basketball backboards must be set a minimum of 15 feet from the property line and 12 feet from side property lines (Public Facilities Manual 8-0300; 2-0209.1; 2-0209.1L).

SECURITY BARS: The installation of security bars on any exterior portion of the home is prohibited. Security bars may be installed on the interior portion of a home. Security bars installed inside the home must never be visible from the street and adjoining homes

SIDEWALKS AND PATHWAYS: Any proposed modification in this area requires the advance approval by the Committee. Stone, brick, concrete or similar durable construction material shall be used for sidewalks and pathways. The scale, location and design shall be compatible with the Lot, home and surroundings.

The grass strip between the sidewalk and street is not the property of the Lot owner. However, each Lot owner is encouraged to maintain this area to the same extent that you would maintain your own property.

SIGNS: A temporary (not illuminated) sign, not to exceed five (5) square feet in area, advertising a home for sale or rent may be displayed on a lot. Real estate directional signs may be placed on the common area between 9:00 p.m. Friday and 9:00 p.m. Sunday. Any directional signs placed on the common area in violation of the above stated time period may be removed and disposed of by the Association.

No signs, advertisements or messages other than for purposes of identification shall be displayed on the Lot which offer or imply commercial or professional products or services, or which may constitute any other kind of business solicitation in or from any residence or residential property without written approval of the Board.

Security signs shall not exceed 64 square inches and no more than one may be located on a Lot. Approval by the Committee is not required.

Refer to Article VII, Section 11 of the Declaration of Covenants, Conditions and Restrictions for more information on signs.

STORAGE SHEDS: All storage sheds require advance approval by the Committee. As a general rule, a shed for a townhouse shall not be more than 6x8 in size, and for townhomes and single family dwellings they shall be no more than 8x8. The color and material for all sheds should match the home's existing siding or trim. The size, materials, and location of the shed shall be compatible with the architectural qualities of the home and neighboring homes and will be considered during the review process by the ARC. As with other exterior additions or modifications, storage sheds must be properly maintained in good condition.

STORM DOORS AND WINDOWS: See "Doors and Windows."

SWIMMING POOLS: Installation of swimming pools required advance approval of the Committee. Only in-ground swimming pools will be approved. A pool must be located in the rear yard. Pool filtration equipment shall be shielded from adjacent properties through the use of mature shrubbery, fencing, or lattice screening of appropriate size and scale.

TRASH REMOVAL: All trash must be placed in a covered container in the rear of the home until trash collection days, at which time the covered container may be placed on the curb for removal. Oversized items that will not fit into a covered container are exempt from the container requirement and may be placed on the curb for removal along side your covered container. Branches will not be picked up if over 4' long and all branches must be bundled together or placed in trash container for the trash removal company to pick them up.

Refer to Article VII, Section 6 of the Declaration of Covenants, Conditions and Restrictions for more information on trash removal.

VEGETABLE GARDENS: Vegetable and fruit gardens must be located in the rear of the property and cannot be greater in size that one-fourth the size of the overall rear property. Homeowners may be required to provide natural or man-made screening to minimize the negative impact to adjacent homeowners. Gardens shall not adversely impact or damage neighboring properties in terms of weed growth, unsightliness, adverse drainage, etc. All dead plants and other supporting garden-related items (such as cages, stakes, etc.) must be promptly removed when the garden ceases to be productive for the season.

Vehicle Rules then Continue Resolution Antenna Resolution Architectural application.
